

### Technical Information

Tooling Division		
Description of Equipment	Quantity	
CNC Precision Carving Machine	1	
CNC Milling Center	1	
Linear Cutting Machine	3	
Milling Machine	4	
Grinding Machine	2	
EDM	4	

Die Casting Division		
Description of Equipment	Quantity	Remarks
88Ton Zinc Casting Machine	2	Die Lock Force: 88 tons. Fully Automatic. 40,000 Castings/day
150Ton Aluminum Casting Machine	3	Die Lock Force: 150 tons. Fully Automatic. 3,000 Castings/day
250Ton Aluminum Casting Machine	2	Die Lock Force: 250 tons. Fully Automatic. 1,000 Castings/day
420Ton Aluminum Casting Machine	1	Die Lock Force: 420 tons. Fully Automatic. 1,000 Castings/day

Stamping Division		
Description of Equipment	Quantity	Remarks
63Ton Single Crank Press	1	Stroke Length: 110mm
45Ton Hydraulic Press	2	Stroke Length: 120mm
25Ton Single Crank Press	3	Stroke Length: 65mm

Plastic Injection Molding Division		
Description of Equipment	Quantity	Remarks
80Ton Horizontal Injection Molding Machine	2	80 tons clamping capacity. Shot weight: 114grams
93Ton Horizontal Injection Molding Machine	3	93 tons clamping capacity. Shot weight: 137grams
148Ton Horizontal Injection Molding Machine	3	148 tons clamping capacity. Shot weight: 358grams
188Ton Horizontal Injection Molding Machine	1	188 tons clamping capacity. Shot weight: 531grams
208Ton Horizontal Injection Molding Machine	1	208 tons clamping capacity. Shot weight: 632grams
250Ton Horizontal Injection Molding Machine	1	250 tons clamping capacity. Shot weight: 800grams
80Ton Horizontal Injection Molding Machine	1	80 tons clamping capacity. Shot weight: 120grams

Quality Assurance Division		
Co-ordinate Measuring Machine(2-D)	Quantity	
CNC Precision Carving Machine	1	
Profile Projector	1	
Hardness Gauges	2	
Salt Spray Test Machine	1	
Height Gauge	3	

Lathing Division		
Description of Equipment	Quantity	Remarks
CNC Lathe	30	With Material Autofeeder
Precision Automatic Lathe	50	Stroke Length: 120mm
